

T700L - BLUE

OVERVIEW

The T700 Acoustic Telephone Hood has been designed to provide a dedicated wall space for a mobile phone call or for a fixed telephone or information point

Using premium faux leather, this modern wall mounted booth will keep your voice levels quieter from others around you and also help reduce background noise

We stock three colours as standard but an extensive range of colours are available subject to minimum quantities, please contact the office for further details

Supplied as easily wall mountable out of the box (3 screws required in your wall), SpringLOCK® mounting brackets lock the hood securely to the wall, only removable using the special tool provided

Expertly upholstered, this striking acoustic booth creates areas of privacy for using phones and tablets in open areas and commercial offices
